REACH Regulation (EC) No 1907/2006

According to Regulation (EC) No 1907/2006, in force since 1 June 2007, all substances produced in or imported into the EU in quantities above one tonne have to be registered at the European Chemical Agency ECHA.

CERATIZIT SA introduced for themselves as well as for their subsidiaries all steps necessary to meet the requirements of the REACH regulation.

Substances – Preparations – Articles:

- CERATIZIT imports and manufactures substances which are processed to articles.
- All sintered hard metal products delivered by CERATIZIT are articles in terms of REACH.

Pre-registration:

- All substances obligatory for registration have been pre-registered in the REACH-IT system of ECHA.

Registration:

- Tungsten carbide and its preliminary products which we manufacture / import in quantities of more than 1000 tons a year, have been successfully registered:
 - **Tungsten carbide Reg.Nbr.: 01-2119486687-17-0003**
- For all other substances which have to be registered until 2013 and 2018 registrations dossiers will be realised and submitted to ECHA in due time.

Substances of very high concern (SVHC):

- CERATIZIT products do not contain any substances of the SVHC list, published by ECHA.
- It is not to be expected that our substances might be listed on this list in the future. If this happens although, we will inform our customers according to Art. 33 REACH.

Safety Data Sheets:

As according to Art. 3 REACH sintered hard metal products are articles and not substances / preparations there is no obligation to prepare a Safety Data Sheet conforming to Art. 33 REACH.
