KLENK

PREMIUM CUTTING TOOLS FOR THE AEROSPACE INDUSTRY

KLENK is focussed primarily on the aerospace sector, where it leads the way in rotary cutting tools for drilling, milling, reaming and countersinking applications. Many of its products are custom-designed for individual customers around the world, where it applies its specific knowledge of machining materials such as carbon fibre, titanium, aluminium and steel.

Team Cutting Tools means access to a leading international expert in the field Carbide and carbide tools for all those involved. With the new partners in the CERATIZIT team, the goals for the future are: A large single product portfolio, even more custom solutions and additional upgraded services.

One thing that will always remain the same: direct contact with the customer - thanks to short distances and personal contacts. Now together as a single sales organization

100,000 ARTICLES - YOUR FULL-RANGE FOR THE METAL CUTTING INDUSTRY

The new Team Cutting Tools is creating a new, leading player in the field of metal cutting technology. Partners and customers will benefit from one in the future highly attractive, holistic performance promise:

One of the largest product assortments on the market. An enormously powerful Distribution. Leading expertise in future technologies of digitization to nanotechnology. And deep industry expertise based on many years of experience. All under one roof.

*“Our service promise:
As a customer you will benefit in the future
from one of the largest assortments
in the market, a powerful united
sales force and our leading expertise.”*
